# COVER LETTER

---

Dear Hiring Team,

I hope this letter finds you well. My name is Keena Washington, and I am writing to express my strong interest in joining your team. I have my bachelor's in software engineering from Western Governors University, bringing a unique blend of technical knowledge and managerial experience that will enable me to add value to your team.

Over the course of my career, I have honed the ability to manage people and projects effectively. As a retail Manager, I oversaw daily operations, coordinated advertising campaigns, supervised employees, and successfully boosted sales by 17% in my first year. These experiences have taught me to be an adaptable leader who thrives under pressure.

Through my studies at Western Governors University, I have built a strong foundation with C#, JavaScript, Python, SQL, HTML, CSS, Database Analytics, and UI/UX Design. I am eager to merge my software engineering skills with my hands-on work mentality and experience to excel in a role that challenges me to deliver innovative solutions and assist in team success.

In addition to my work and academic pursuits, I am proud to be a father of two. This inspires me daily to push my limits, manage my time effectively, and strive for excellence. My college has recognized my dedication and work ethic, earning me the Academic Excellence Award.

I would welcome the opportunity to discuss how my background and skill set align with your company's mission. Thank you for taking the time to review my application. I look forward to the possibility of contributing to your organization's continued success.

Sincerely,

Keena Andre Washington Jr.
